#### MESSAGE

Hi Stuart,

I don't know if you remember me but you have done several projects for me when I lived in Park City, last being the concrete you poured for me before I moved. I have several projects that I need done in my current house in Hutchinson and was wanting to know if you did any work in Hutchinson? I have worked with you long enough to trust you and appreciate your work. I am having a difficult time finding anyone here in Hutchinson that I can trust to complete what needs to be done. I'm hoping you are available to give me an estimate, and give me some advice on how you would be able to repair some of the things I need done. It would involve sistering some joists in my upstairs bathroom floor, figuring out how to repair a window that is leaking (my main concern at this point), filling in an exterior door entrance, and putting a new subfloor (and whatever else needs to be put down so I can tile). And the list goes on but those are for starters. Please let me know if you would be interested in giving me an estimate. I appreciate your work ethics!

Thanks,  
Jeff Foos
