Dear Stuart & Annie,

It was such a pleasure working with you and your team. We are impressed at the level of quality and professionalism exhibited by all and will highly recommend your services to our friends and family. We love our "new" house!

Kirk, Dan, Scott, and Freddie did fantastic work, but Kirk & Dan especially deserve an Honorable Mention for (and I'm betting they'll never forget) carrying aluminum planks for a mile across a frozen tundra. Thank you all!

Sincerely,
Julia Herke
